

# Historian's History!

Scrapbooks stored in our lockers begin in 1939 and were consistently compiled through the early 1950's. After that they are hit-n-miss and fairly non-existent from 1995 onwards. We also have many photos which are mostly unlabeled and/or undated, but fun to see. In spite of the labeling omissions, some clarity comes through about members and their fashion in the day.

*Enjoy this light-hearted look at the Alamo Women's Club 'back in the day'.*
